Etched logo: one or more colors

Cut-down height (some limits apply)

Countertop water distiller

Vinyl logo (glass or mirror only)

Upgraded pebbles (Black, White, Striped)

WATER & CARE

- Distilled water recommended; filtered water also works well
- Never use salt-softened water
- Top off once or twice a week
- Keep the pebble shelf clear so the pump stays covered

OUTDOOR USE

- Rated for indoor and outdoor use; a covered, sheltered spot is best
- Its light weight makes it best kept out of the wind
- Before freezing weather, drain and dry; never add antifreeze
- GFCI-protect the circuit at the breaker or an upstream outlet, not with an outlet behind the feature (hard to reset)
