CALMING WATERS

Wall-Mounted Water Feature · Indoor / Outdoor

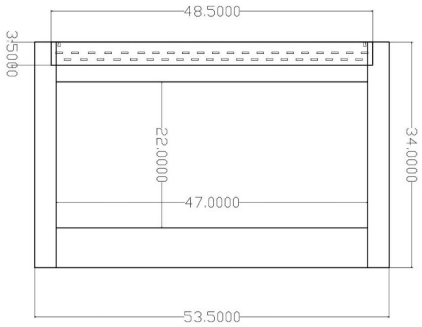

A wide, landscape-format wall fountain, the Calming Waters spreads a full sheet of water across a fully framed surface. It hangs on an **EZ-install bracket** and needs only one outlet.

Shown with Rustic Copper trim and Black Featherstone

Overall dimensions (CWA)

Etched logo: one or more colors

Upgraded pebbles (Black, White, Striped)

On/off remote control

Custom height: 28" to 33" (34.5" standard)

Individual stone selection

Countertop water distiller

WATER & CARE

- Distilled water recommended; filtered water also works well
- Never use salt-softened water
- Top off regularly; small basins lose water quickly to evaporation
- Wire the outlet to a wall switch for easy on/off

OUTDOOR USE

- Rated for indoor and outdoor use; mount on a covered wall, such as a porch or under an awning
- Before freezing weather, drain and dry; never add antifreeze
- GFCI-protect the circuit at the breaker or an upstream outlet, not with an outlet behind the feature (hard to reset)
